11E — Deep-Dive Feature Audit: Human Foundation, Psychology, Social Graph & Karma (Part 5 of 5 — Grand Finale)

Destiny Karma Threads (RED/GOLD/BLACK_THREAD), Triple-Split Karma & Dormant luck, Activating Idle human_core.js Dimensions (155 Stats) & Master P0 $\to$ P3 Roadmap

- **Target Codebase**: JianghuSect 2 (JS2-v2.6.0 in Google Drive Js2 new)
- **Target Audience**: Autonomous AI Developers (**GPT** & **Gemini**)
- **ABSOLUTE IMMUTABILITY INVARIANT**: **js/human_core.js (HC.FINGERPRINT === '155:2f9c9dd7', SHA-256 a0d393284fb4b136848e5b80e12f3edd2c4f9437c419c793c2a7e75d881c0542) MUST NEVER BE EDITED.** Every enhancement in 11A–11E lives strictly in data/data_core.js and external modules (cultivation.js, ai.js, cognition.js, sect.js, combat.js, stats.js, sim.js).

1. [HUM-KARMA-01] Triple-Split Karma State, Dormant destiny.luck (氣運之子), & RED_THREAD FIFO Eviction Bug (js/sect.js, js/combat.js, js/cultivation.js)!

1.1 Three Unconnected Karma Trackers & Unused destiny.luck

1. **Three Separate Karma Silos**:
   - npc.h.destiny.karma (human_core.js:272) — rolled at birth, **never updated or read anywhere**.
   - npc.karmicLedger = { goodKarma, sin } (v3.2.0 DESTINY_KARMA) — checked by combat skill conditions SIN_KARMA_HIGH / KARMIC_DEBT_POSITIVE, **but disconnected from daily moral choices (embezzlement, welfare favoritism, healing the sick, merciful subdual vs executing surrendered foes) AND disconnected from Heavenly Tribulation severity**!
   - Path-specific gauges (BODHI_MERIT, KARMA_BALANCE, INFERNAL_SIN).
   - **Fix**: Synchronize SECT.DESTINY_KARMA.recordKarmicAction across daily moral/immoral acts, mirror net karma (clamp(goodKarma - sin, -100,

100)) onto npc.h.destiny.karma (valid finite number in h.destiny), and let high sin >= 60 summon heavier **Crimson Karmic Lightning (業火天劫, +18% bolt dmg)** during CULT.TRIBULATION while high goodKarma >= 60 grants **Golden Merit Canopy (功德金光, -15% bolt dmg & -25% Heart-Demon backfire)**!

2. **Dormant npc.h.destiny.luck (Children of Heaven's Fortune / 氣運之子)**:
   - human_core.js:272 gives 3% of humans mythic luck (82..98), yet luck is practically unused across 39 scripts!
   - **Fix**: Feed (E(n, 'destiny.luck') - 50) / 500 (±10% bounded modifier) into **fortuitous secret-realm encounters (explore.js), underwater chest rarity (fishing.js), cliff-fall survival (TR_AC_CLIFF_SURVIVOR), and FORTUNE_GAMBLER resonance**!

1.2 5-Slot Cap on npc.destinyThreads Risking RED_THREAD Eviction & Dead-Bandit Clutter

- npc.destinyThreads is capped at 5 threads (PROP-12). Without priority protection, repeated GOLD_THREAD bodyblocks or BLACK_THREAD skirmishes fill all 5 slots with minor/deceased targets or evict a cultivator's lifelong **RED_THREAD (Taoist Companion)**!
- **Exact Fix**:
  1. Protect RED_THREAD and active kin/mentor BLACK_THREAD from eviction (priority tier 1).
  2. Auto-archive threads pointing to dead & buried NPCs into npc.fulfilledThreads (freeing active slots while preserving Chronicle history!).
  3. Block GOLD_THREAD creation between characters who hate each other (rel.a < -20 or active BLACK_THREAD, 09B).

2. [HUM-CORE-02] Awakening the Idle human_core.js Dimensions Across Gameplay (Zero Core Changes Required!)

human_core.js already computes and validates **155 rich human dimensions** plus tastes and attachment. Wiring the currently idle dimensions into existing formulas immediately multiplies emergent personality depth at O(1) cost:

Existing `human_core.js` Field	Current Usage	High-Impact Emergent Wiring Target
`physiology.smellTaste`	`0` gameplay reads	Boost `cooking` specialty potency (`economy.js`), `ALCHEMY` impurity detection, & poison-trap detection (`explore.js`)
`physiology.thermalTolerance`	`0` gameplay reads	Mitigate `snow` movement slow (`ai.js:200`), `forge` cauldron/anvil stamina drain, & `burn`/`chill` DoT duration (`-15%` at `80+`)
`physiology.vision` & `hearing`	`0` gameplay reads	Scale `BOW`/`NEEDLE` `acc` (`vision`) vs `SONIC_HARMONY` / night `guard` / blind-ear `eva` (`hearing`)
`social.deception` vs `intellect.readPeople`	`0` gameplay reads	Pit `deception` (`spymaster` espionage, corrupt treasurer embezzlement, disguised infiltrators) directly against `readPeople` (`censor` audit, `guard` gate screening)!
`intellect.spatial` & `inventiveness`	`0` gameplay reads	Scale `ARRAY` puzzle-gate solving (`explore.js`) & `CONTENT` experimental recipe invention chance (`content.js`)!
`h.tastes` (`weather`, `pastime`, `drink`)	`0` gameplay reads	Grant `+2.5` natural `mood` & `+0.08` `cultivate` focus when `W.weather.kind` matches `h.tastes.weather` (`e.g.`, `ฝนพร่ำ / หิมะแรก`) and prefer matching `A.leisure` mode!

Existing `human_core.js` Field	Current Usage	High-Impact Emergent Wiring Target
`trait.behaviorMods.decisionBias`	Ignored (`only actionWeights read`)	Wire `decisionBias` (`preferBodyPath`, `inventRecipe`, `avengeGrudge`, `foundOwnSect`, `forgiveAndMediate`) into `CULT.pathScores`, `COG` goals, and `TRIBUNAL` rulings!

3. Master Prioritized Execution Roadmap for GPT & Gemini (`P0` $\to$ `P3` Across `11A–11E`)

Phase	Priority	Target Files *(Never `human_core.js`!)*	Exact Deliverables Across `11A–11E`
Phase 1	**P0 — Kinship/Celibacy Guards, Friendly-Spar Meridian Rupture & `×62` Trait Bug**	`data_core.js`, `cultivation.js`, `combat.js`, `ai.js`, `sect.js`	1) Add `SECT.canRomance(W, a, b)` blocking blood relatives (`3` generations), married adulterers, and celibate vow holders (`11D`). 2) Fix `n.meridians.autoOverdrive !== false` tautology & add `f.serious` guard in `combat.js:655` so friendly spars stop rupturing meridians (`11B`). 3) Fix `TR_IN_CRIPPLED_R`

Phase	Priority	Target Files *(Never `human_core.js`!)*	Exact Deliverables Across `11A–11E`
			`OOT` `MAX_CAP` $\to$ `MULT: 0.55`, `TR_BL_POISON_IMMUNE` `poisonResistance` $\to$ `physiology.immunity`, `TR_IN_BLIND_SWORD_EAR` `vision: -80` + `ILLUSION_IMMUNE`, and wrap `HC.addTrait` so 14-year-old recruits stop spawning with post-life `ACQUIRED` traits (`11A`).
Phase 2	**P1 — Unified Vows, Inverted Immortal Hunger, Marriage $\leftrightarrow$ Companion & Mentorship Sync**	`cultivation.js`, `ai.js`, `cpeco.js`, `stats.js`, `sect.js`, `bottleneck.js`	1) Bridge `daoOath` + `voluntaryVows` via unified predicates (`isAbstainingMedicine`, `isBoundNoKill`, `isBoundNoRetreat`) across all pill/combat/welfare hooks (`11B`). 2) Fix `ai.js:972` inverted `+0.06 * cStage` hunger drain into `Bigu` (辟谷) attenuation (`11C`). 3) Auto-bind `companionId` + `RED_THREAD` on marriage, unify all 3

Phase	Priority	Target Files *(Never `human_core.js`!)*	Exact Deliverables Across `11A–11E`
			mentorship schemas via `SECT.MENTORSHIP.formBond`, and pass `{ killer }` into `AI.kill` (`11D`).
Phase 3	**P2 — `daoScars` Live Stats, `HEART_DEMON` Counseling/Climax, Constitutions & Natural Offspring**	`data_core.js`, `stats.js`, `ai.js`, `sect.js`, `sim.js`	1) Wire `daoScars` into `ST.compute`/`getBaseFast`, fix `passiveCacheKey` for recovered `experienceTraits`, and add `BODYGUARD_INTERCEPT` + pet care triggers (`11B`). 2) Fix `CONST_*` elements + `toughness`/`vitality` modifiers and sync `npc.lifespanMax` + immortal `HC.ageFactor` wrapper (`11A`). 3) Fix `AI.insight` `heartDemon` inversion, add `'counsel'` pair type, add `heartDemon >= 95` 走火入魔 crisis, and enable monthly organic `spawnCompanionOffspring` (`11C`/`11D`).

Phase	Priority	Target Files *(Never `human_core.js`!)*	Exact Deliverables Across `11A–11E`
Phase 4	**P3 — Karmic Tribulation, `destiny.luck`, Frozen Emotions, `fulfil` Loops & Idle `155` Stats**	`sect.js`, `ai.js`, `explore.js`, `fishing.js`, `content.js`	1) Connect `karmicLedger` (`sin`/`goodKarma`) to daily deeds & `CULT.TRIBULATION` Karmic Lightning, protect `RED_THREAD` from FIFO eviction, and wire `destiny.luck` (`11E`). 2) Activate `comfort`, `pain`, `confidence`, `grief` mourning decay, `fulfil` (`familyClan`, `wealthResource`, `powerStatus`, `honorLegacy`), `smellTaste`, `thermalTolerance`, `deception` vs `readPeople`, and `h.tastes` (`11C/11E`).
